CONTENTS

Instructions to Authors 373
(Full article in PDF format)

RESEARCH PAPERS

Neuroprotective effects of neurosteroids against hypoxic-neurotoxicity in naive and benzodiazepine inverse agonist FG 7142-treated mice: D.S. Reddy and S.K. Kulkarni 381
(abstract) (Full article in PDF format)

Analgesic activity of silver preparations used in Indian systems of medicine: Ayesha T. Khanna, R. Sivaraman and S.B. Vohora 393
(abstract) (Full article in PDF format)

Effect of α -tocopherol on isoproterenol-induced changes in lipid and lipoprotein profile in rats: A. Paritha Ithayarasi and C.S. Shyamala Devi 399
(abstract) (Full article in PDF format)

Molecular genetic markers predict development of drug-induced leukemias in patients undergoing cytotoxic therapy: Bharathy Kumaravel, T.S. Kumaravel, N. Gajendiran, Mary N. Mohankumar and Mansyur Arif 405
(abstract) (Full article in PDF format)

Auditing of prescriptions to study utilization of antimicrobials in a tertiary hospital: N. Gupta, D. Sharma, S.K. Garg and V.K. Bhargava 411
(abstract) (Full article in PDF format)

Modulation of brewer's yeast-induced peripheral inflammation and nociception in rats by centrally administered prostaglandins and their inhibitors: S.K. Hore, V.K. Dumka, S.K. Tandan, H.C. Tripathi and Dinesh Kumar 416
(abstract) (Full article in PDF format)

Clinical evaluation of prazosin in symptomatic benign prostatic hyperplasia - an Indian experience: S. Basalingappa, J. Xavier Ignatius and K.M. Madappa 420
(abstract) (Full article in PDF format)

SHORT COMMUNICATIONS

Hepatoprotective activity of ethyl acetate extract of Acacia catechu: P. Jayasekhar, P.V. Mohanan and K. Rathinam 426
(abstract) (Full article in PDF format)

Effect of methylene blue on endothelium-dependent relaxation by acetylcholine in monkey aortic strips: S. Savithiri and A. Kuruvilla 429

(abstract) (Full [article in PDF format](#))

LETTERS TO THE EDITOR

Studies on central nervous system with benzohydroxamic acid:

J.A. Khanam, M. Das, A. Gomes, S.P. Bag and P. Sur

(Full [article in PDF format](#))

Pharmacokinetics of pefloxacin in goats:

B.K. Roy, S.N. Pandey, K.P. Sinha, D.K. Thakur and K.K. Singh

(Full [article in PDF format](#))

Acute refractoriness to insulin-induced hypoglycemic convulsions in mice:

S.K. Garg, M.A. Ayub Shah and M. Sabir

(Full [article in PDF format](#))

BOOK REVIEW

(Full [article in PDF format](#))
